

BUSINESS CONTINUITY AND RESILIENCE SOLUTIONS

Business Resilience Workshop

Safeguarding your operations
against unexpected disruptions.

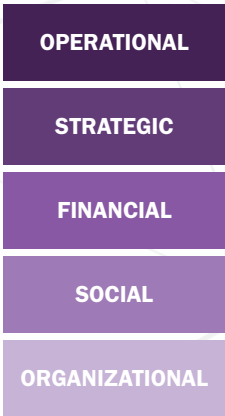

Business Resilience Workshop

Ensuring business continuity plans are in place.

The COVID-19 pandemic has pushed many organizations to significantly expand their work from home capabilities. In the rush to support mass amounts of remote workers, some have substituted the absence of a strategic plan with a number of expedient decisions that may have unknowingly compromised their ability to function fully and securely in less than optimal conditions.

THE FIVE PILLARS OF
RESILIENCE

SENTINEL MODERATOR QUALIFICATIONS
 An IT career executive with over 25 years of Director/CIO level experience in strategic planning, new technology adoption, and cultural transformation who has helped countless organizations navigate the complex landscape of technological change.

WORKSHOP OVERVIEW

- **Staff and External Communication**
Experts will perform a comprehensive analysis on the effect of the workforce to understand communication processes.
- **Business Management**
Are we missing imperative continuity plans?
- **Department Management**
Has the organization analyzed the impact on each department if a disruption happens?
- **Connect from anywhere**
Are plans available so employees can remotely connect from anywhere?
- **Report**
Sentinel will provide recommendations that align with the strategic goals and business objectives of your organization.

BENEFITS

- Provide employees with guidance needed in case of a disruption.
- Rapidly identify areas of risk within your business plans.
- Significantly improve business continuity and the resilience of your organization.
- Assess results presented with your overall risk score and Business Resilience Readiness.
